

Student Monitoring: Information for Year 7, 8 and 9 Parents/Carers

Student monitoring is part of our continued drive to raise standards. We send home monitoring reports three times a year containing information from subject teachers regarding your child's 'effectiveness' in school. You will see a number of columns on the report and each one is explained below. One report per year will include written comments from your child's tutor, using current information gathered from their subject teachers.

Student Effectiveness Grades:

These are a measure of how well a student is currently performing and are graded from 1 to 4:

Engagement for learning

A judgement on participation, attentiveness and effort in the classroom.

Assessments

A judgement on the results from tests/practical or project pieces.

Classwork

A judgement on the amount of effort and quality of day to day work done in books.

Extended learning

A judgement on work done outside of the classroom.

Progress:

Progress for Years 7, 8 & 9 is calculated using the grades given for student effectiveness. Progress is graded as 'outstanding', 'good' or 'requires improvement'.
