#### **That Girl**

Remember that girl who stood in the corner  
With scratches all around her eyes  
She always was a mourner  
She always used to cry

She had some sad old sandals  
And some messed up hair  
Did you see the size of her glasses  
Did you see what she used to wear

Oh remember that time you pushed her  
And threw food in her face  
But anyway who cares  
She was such a big disgrace

And oh my gosh her accent  
It used to make me laugh  
Whenever she used to say things  
They sounded stupid and daft

Remember in PE  
She came last in every race  
She was never good at anything  
She was so out of place

So do you remember her do you?  
With spots all over her head  
Well guess what, we succeeded  
Last night they found her dead

#### **Bullies**

Bullies really suck  
At Denefield they're out of LUCK!  
If they want to bully us  
They can jog on and get the bus  
Bullying is bad  
The people that do it are really SAD!  
We don't need them here  
It's true friend we need near  
We hate them with disgust  
They need consequences  
That's a MUST!

### **KS3 - Rap about anti-bullying**

*Sing*

Don't wanna come to school  
Just feel alone, people are so cruel  
But you just want to be accepted  
Accepted just wanna be accepted

*Chorus*

You just wanna be accepted  
People are so mean  
They pull funny faces  
You know what I mean  
You want to talk to someone you know  
But this bullying will just keep growin

I feel like I wanna die  
People don't care what I say  
I just wanna cry

Just wanna be left alone  
No one there to be with you  
Only you there on your own  
Hold on tight you're not on your own

Just a girl who wants to feel accepted

### KS4

When I find myself in times of trouble  
Mrs Holley comes and speaks to me  
Teaching words of wisdom  
Bully free!

And in my hours of darkness  
She is speaking to me peacefully  
Teaching words of wisdom  
Bully free!

Bully free, Mrs Holley, let it be, bully free!  
Teaching words of wisdom bully freeeee

And when you're bruised and battered people  
Living in the word of grief  
Mrs Holley has the answer, bully free!

Bully free, bully free, bully free, bully free  
Teaching words of wisdom bully free!

### **KS3 - Rap/poem**

#### **Bullyin**

Maan stop these stupid bullies  
Wat they doin  
It's a niscense there so stupid  
They ent cool lkike the 3 stuges  
Think there wicked makes me livid  
What a stupid world to live in

Weee  
Don't care bout haters got friends on our radars  
Dress like skaters got a big school came with  
Cool paul. These victims ent eaten. No time later

Word to my flag and my flag red  
It's outta my head it's outta my mind  
Nothings fine theres no times  
If they slip up it's all fine  
Schools got no time to stop these crimes  
Help these victims start to shine

### **KS4/5 Poem**

#### **That Lonely Girl**

Surrounded by children  
The lonely girl plays  
Minding her own business  
Over an endless amount of days

The others laugh  
The others shove  
The lonely girl can't help but feel  
Stricken from the feeling of love

When all seemed hopeless  
Ready to leave  
A small group of people  
Weren't ready to bereave

They gave her love  
They showed her support  
No longer lonely  
Her battle fought

Her feelings expressed  
The girl cracks a smile  
Something that has not been seen  
For such a long while

With newly found confidence  
The girl begins to glow  
With new friends behind her  
The love truly shows

### **KS3**

I only wanted to fit in  
I only wanted to belong  
But now all you have  
Made me feel is pain  
For far too long

Your words and actions  
Make me cry everyday  
Now all I want to do  
Is simply run away

I try to avoid school  
I try to avoid you  
But now you follow me  
Back to my house too

I have made my decision  
I will do what you have asked  
I will rid you of me  
Before you complete the task

But first I have one question  
Before I say goodbye  
I haven't done anything wrong  
So why am I the one to die?

## LANGLEY

### KS4

Once upon a time in a land not too far away  
The bullies would often come out to play  
They tortured and tormented made my life hell  
And into endless depression I fell  
At home or school no place was safe  
They could reach me through Facebook and even MySpace  
By their rules and restrictions I had to abide  
It drove me to the point of near suicide  
I was deserted by all even my friends  
And no-one even wanted to make amends  
My life descended into absolute dark  
But at the end of the tunnel there appeared a spark  
A friend came to help save my life  
He put an end to my lasting strife  
He talked to me when no-one else would  
He stood up for me whenever he could  
It only takes one to turn things around  
Instead of silence and darkness there's now colour and sound
