

Parents' Forum

Maintaining regular, open communication and consultation with parents/carers is important to us and our Parents' Forum is one way of achieving this. Our Parents' Forum was set up in 2009 to encourage more parents/carers to get involved in supporting their child's education and has been running successfully ever since.

The Parents' Forum is a platform for parents/carers to ask questions, be consulted on school policy and new initiatives and give views. Many topics have been discussed in the past and examples include: new assessment system and reporting to parents, school uniform, Headteacher recruitment, school meals and our behaviour policy.

Every parent/carer with a child at school is warmly invited to attend each meeting. School leaders and a governor will be present and any issues raised are formally considered by the Governing Body. Copies of minutes are published on the school website.

Next meeting is TBC
